Hancock [illegible] 1829

[illegible] my respects to you, & would observe that we are at present destitute of an overseer in our little factory — and having been informed that you have a son who was amply qualified for that business, I take the liberty to address you upon the subject — and ask you whether you have a son so qualified and if so, what terms he will come and take the management of the factory — and upon what conditions he will undertake — please to return an answer immediately, as it is now Sept, we must have some one soon —

Respectfully Obed Brooks

P.S. Miss Small wishes me to say to you that she cannot obtain any shuttles for you.

O. Brooks
